

Project Shaftsbury Square, Cyberjaya

Project review

Shaftsbury Square, a fusion of art, culture, enterprise and comfort living. It is conceptualized as a self-sustaining work and residential development where aesthetics and function merge in contemporary luxuries.

A prestigious residential and commercial property situated at prime location in Cyberjaya. Another project owned and developed by Shaftsbury Capital Sdn Bhd, a member of Ikhlas Group of companies.

The freehold development comprises three office tower blocks, two blocks of luxury SOHO/serviced apartments and 150 units of retail shoplots offering a diverse range of communal retail amenities that should suit every need.

Green & Sustainable features

1. Shaftsbury Square uses Solar Thermal (Hot Water) System for 2 Blocks of Service Apartment.
2. Shaftsbury Square installed Solar Air Conditioning System and Building Automation System (BAS) for centre core retail shoplots

Solar Air Conditioning System & Solar Thermal (Hot Water) System consists of the following equipment:

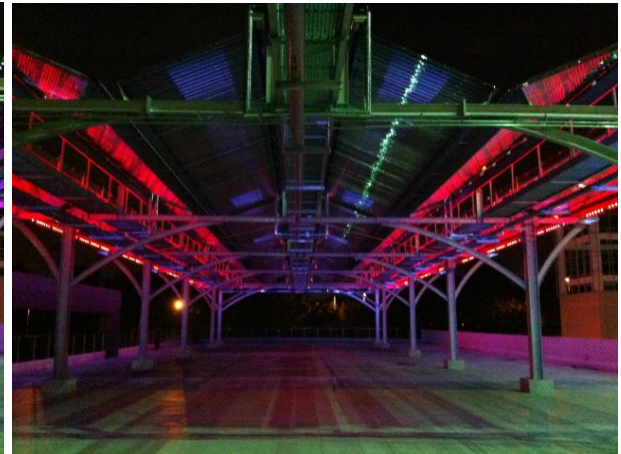

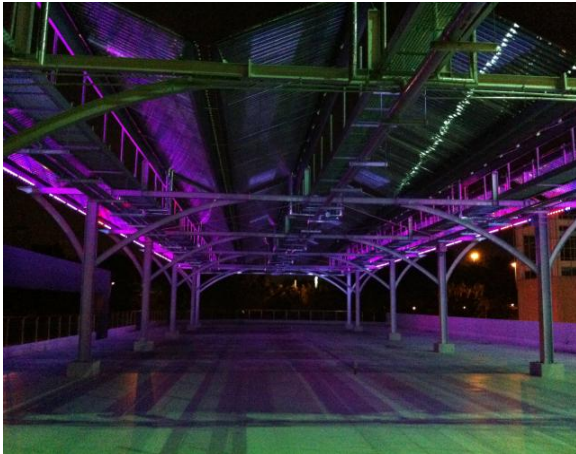

- SDC Solar Collectors
- Sanyo Absorption Chiller
- Pumps
- Cooling Towers
- Expansion Tanks
- Calorifier Tank
